PREFACE.

---

We take great pleasure in presenting to the citizens and the general public the 21st edition of the BROOKLINE DIRECTORY. It is and always has been our aim to make a *careful canvas* from *house to house* and *door to door*, yet after doing this some people *will not* give our canvassers the desired information. We trust each one will take *time and interest* enough in the work to *give* the information *when* asked for, by so doing, the work will be done more satisfactory to all. Thanking all who have assisted us to make the directory complete,

We remain Respectfully,

**F**RANCIS F. MORTON would respectfully inform his friends and patrons that he has retired from business as a builder and will hereafter devote his time to superintending the construction of dwellings and other buildings.

For nearly forty years he was the senior partner of the late firm of Morton & Chesley, builders, thereby having acquired an extensive experience in the erection of buildings of every kind. In the Back Bay district alone, he has erected upwards of two hundred houses, including those of Ex-Governor Ames, and Ex-Governor Wolcott. Some of the prominent buildings erected by him in Brookline are the residences of B. Schlesinger, J. O. H. White, Joseph H. White, E. D. Jordan, Geo. W. Armstrong, Dana Estes and the Beaconsfield Terraces, also many noted public and private buildings in Boston, New York and other cities.

Persons contemplating building will do well to consult him, and thereby save expense and secure well constructed buildings. He will furnish plans if desired, or will give the benefit of his experience to owners in arranging their plans and thereby secure the best results.

Property appraised for investors.

Losses by fire adjusted.

\*22 Signal for no school, 4 rounds. Also, a special box for Town Hall except between the hours of 7.45 and 8.30 a. m.

†Special boxes.

#### REGULATIONS CONCERNING FIRE ALARMS.

First alarm to be given by striking four rounds on all bells.

Second alarm to be given by striking three blows on all bells.

Third alarm to be given by striking ten blows on all bells.

1 One stroke at 12 M. Washington time, and 9 p. m. every evening.

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters.

#### INFORMATION FOR YOU.

The key to your nearest fire alarm box, you will find in small box attached to door of fire box.

To give an alarm, break glass in front of small box, turn the key you will find there, open the door to fire box, pull down the hook in the box once (without jerking) and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which, report immediately to the superintendent or at the Station House, the box out of order.

Before ringing an alarm be sure that a fire actually exists.

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible.

All persons giving fire alarms are requested to remain by the box, if possible, to direct the fireman to the fire. Each box contains a small bell, which if heard before you pull indicates that the alarm has been previously given.

After the first alarm has been rung in, all other alarms or signals are given only by the engineers.

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law.

SPECIAL NOTICE.

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons; both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make all necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration.
